PORTFOLIO SHOWCASE

Eluwade Peter Toluwanimi (Peterlightspeed)
Hybrid Web Developer (AI / Machine Learning & Frontend)
Creative Technologist | Content Creator | Graphic Designer | Saxophonist (Peterphonist)

PROFESSIONAL SUMMARY

I am a hybrid web developer combining front-end engineering with artificial intelligence and machine learning foundations. I build responsive, user-friendly interfaces while exploring intelligent systems that improve automation, data handling, and digital experiences.

My background includes real-world projects in web development, UI/UX design, content platforms, and digital branding. My frontend stack includes HTML, CSS, JavaScript, and Bootstrap, while my AI journey focuses on Python, data analysis, machine learning fundamentals, and automation concepts.

I am a fast learner, product-focused thinker, and growth-driven professional preparing for advanced AI and global technology opportunities. Alongside technology, I perform as a saxophonist under the brand name "Peterphonist," strengthening my creativity and communication skills.

CORE SKILLS

- Hybrid Development
